

GOVERNOR SPROUL AND OTHER NOTABLES EXPECTED TO ATTEND CELEBRATION FOR SOLDIERS

Presence of Governor is Assured General Chairman Pryce Says.

POSSIBLY SEC. DANIELS

Expense of Observance is Fixed at \$12,000 by Central Committee; J. L. Evans Named Grand Marshal of Parade; Fred Kuriz County Organizer.

The Governor William C. Sprout "will be one of the features" of the home-coming celebration for the service men and women, with emphasis on "will be"; that Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, will also honor the occasion by his presence, and that efforts are being made, with prospects of success, to secure Secretary of the Navy Joseph Daniels and Senator P. C. Knox, a former Fayette countyman, were statements made to the central committee at a meeting last evening at city hall by General Chairman M. B. Pryce. There will also be other speakers of lesser note, it is understood.

Numerous details were worked out. Others were discussed. According to itemized estimates the expense of the celebration will be \$12,000. Of this amount it is considered probable the Red cross street fair committee, through its various activities, will be able to raise \$5,000. The remainder will be solicited in Connellsville and elsewhere in the county, this being left to the finance committee.

J. Fred Kuriz was named organizer for the county. At a previous meeting a committee was named to ask Mr. Kuriz to become executive secretary for the county. This Mr. Kuriz declined to do because the multiplicity of details that would be demanded of him and for which he would not have the time, but he readily agreed to attempt the work of organization. His duties in this line will be to get the several communities in the county working in cooperation with the general body here to bring about a county-wide celebration. Whether this will be done by individual cities or by a county-wide celebration, the committee will be left to Mr. Kuriz. He was at the meeting and promised to put all his energy into the movement.

John Lewis Evans, former burgess of Connellsville and leader in many a celebration, was chosen grand marshal of the parade for Wednesday, the "big day." Wednesday is the final day of the celebration, when it is to start with memorial services on Sunday. Monday will be given over to the welcoming of the soldiers and visitors. Tuesday will be women's day and Wednesday will be military day.

A report from a committee appointed to confer with Mrs. J. French Kerr relative to the scope of the program for women's day said that Mrs. Kerr is very enthusiastic and ready to enter upon this work at any time; also that she is confident of success through the cooperation of women of all classes in the city and county.

The street fair committee, Chairman Pryce reported, is making preparations to put on a number of side events during the celebration; these to be held for the remainder of the program. Parking of automobiles was one of the problems confronting the committee. Details of this plan are yet to be worked out. Several parts of the city were suggested for the purpose. Valuations will be stationed at the parking places to assure safety of the cars while left there.

A. M. Haines, Tom Davidson and J. L. Schick were named a committee to learn if the grove on the South Side will be available for the public speaking. The committee is asked to report by Friday evening at which time there will be a meeting at the Masonic temple.

Along the line of publicity a salesmen's committee is being formed. On this have been named Harry Hopkins, Joseph Murphy, William Percy, O. R. Carpenter, E. E. Abbott, J. M. Davis, C. W. McClellan, James V. Rogers, Roy Suter, G. F. Sasser, and Henry George. Others will be added. The object is to have this committee in its travels over the county and elsewhere distribute literature bearing on the celebration.

To work up the Italian end of the celebration, the following committee was named: Gaetano Corrado, P. Busano, R. DeAngelis, A. Basileone, Rev. Henry DeVivo, A. Trovati, Philip Gallardi, R. Gallardi, D. Vona, Elio Nannini, Fred Furnari, Victor Juzzio, Charles Scheppl, Salvatore Puccio, Frank D'Auria and James Ross. This committee may be enlarged.

There will also be appointed a committee to look after the Slavish-Romanian-Polish part of the celebration. Information as to the time the 28th and 30th divisions will be demobilized is indefinite. Chairman M. B. Pryce was unable to get in touch with former Congressman Bruce P. Sterling, as directed at the meeting Monday night, but from other sources he said he learned that it is probable the divisions will not be discharged from service before July 1. He was of the opinion that the celebration cannot be held before August. There are about 100.

HOME MORE THAN GOLD CHEVRONS TO SOLDIERS, PAUL WAGONER WRITES

"Let Them Come Over Here and Let Us Go Home, Then They May Wear the Gold," is Slogan.

"Let them come over here and let us go home, then they may wear as many gold chevrons as they please," is the answer of the men in service overseas to those at home to the protest against gold for the overseas man and silver for those who did not get across. This is voiced in a letter from Private Paul G. Wagoner of the Finance Department, Quartermaster's Corps of the 80th Division written to his parents, Mr. and Mrs. A. E. Wagoner of the West Side.

"Get the Boys Home 'Toot Sweet' is the slogan printed on all papers, Private Wagoner says. 'Toot Sweet' means 'in a hurry.' As evidence of this newspaper campaign he sent along a copy of the Army edition of the Chicago Herald.

Private Wagoner was recently transferred from the 320th Infantry to the Finance Department of the Quartermaster's Corps. He is working on paravels for the division, something for which his experience with the Young Trust company fits him. He tells of meeting "the Lepley boy" from Sixth street, West Side. Lepley is looking fine, the writer adds.

The letter was written February 11.

ARRESTING COP ON JURY

Patrolman D. H. Turner Figures in Unusual Case in Court.

Content to leave a decision to the discretion of D. H. Turner, Connellsville policeman, who was called as a juror in the case, Attorney H. George May and John Duggan, Jr., made little efforts to advance their respective viewpoints in an assault and battery case heard yesterday afternoon before Judge E. H. Reppert in Uniontown, other than to bring out the facts, Principal, both attorneys and the juror upon whom both lawyers repeated such consideration were from Connellsville.

James May, the arresting policeman, in the case and both attorneys were agreed that he could better present the facts to the jury in the jury room than they could in conducting the case. Mary Ellis was defendant in a cutting case prosecuted by Sarah Jones in which morphine entered as a side issue. The cutting occurred in the Connellsville police station at a time when several negroes were confined. The Jones woman claimed that she had an altercation with another negro in the corridor by the name of Ruth and was about to give battle to her when she ran into the sharp edge of a knife. She claimed the Ellis woman wielded the weapon, but in her own defense the defendant claimed that Sarah had the knife and was going after Ruth when she interfered. In the scuffle, the Ellis woman testified, Sarah was cut in the arm by her own knife. The jury returned a verdict of not guilty.

JURY GOES OUT TO DETERMINE MURDER VERDICT

Judge J. Q. Van Swearingen Delivers 40 Minute Impartial Charge.

HAVE LONG DELIBERATION

Leave Court Room at 9:40 O'clock and Are Still Out at 2:50 O'clock; Mrs. Martella Retains Her Attitude of Unconcern Throughout the Trial.

At 2:30 o'clock this afternoon the jury in the Martella case was still out, apparently in a deadlock.

After a 40-minute impartial charge by Judge J. Q. Van Swearingen, the jury in the Martella murder case went out at 9:40 o'clock this morning. Up to noon no verdict has been returned.

Mrs. Pauline Martella, who is on trial for the murder of her husband, Nick Martella at Herbert on August 21, last, sat through the last stages of her trial maintaining the same attitude of unconcern which characterized her demeanor throughout the case.

Testimony was completed yesterday afternoon and arguments made from opposing viewpoints by Attorney George Patterson and District Attorney S. John Morrow. The commonwealth is seeking for conviction of murder in the first degree while the defense is asking for acquittal on the ground that the defendant was a true and loving wife and mother, and had no part in her husband's murder.

The appearance of John Salento in court yesterday afternoon, apparently more dead than alive, provided a most dramatic moment in the trial. With eyes closed and head bowed he sat absolutely immovable wherever he was placed and seemed to have no appreciation of the intensely dramatic scene being enacted in the court room. Salento is the alleged lover of Mrs. Martella and is jointly charged with the murder of the woman's husband.

Suit for \$5,000 for slander was instituted yesterday by Letty M. Lyons against Jacob Churns of Oliver. The plaintiff claims that Churns circulated a false report against her that "Letty Lyons caused the death of her husband's first wife."

A verdict of not guilty but pay the costs was returned by the jury in a paternity case instituted by Grace Sullivan against Samuel Whiskey. Both principals in the case came from Springfield township and they were accompanied into court by their respective families who testified in behalf of each. Whiskey denied his guilt and set up an alibi as his defense. Hearing the case required several hours. The trial was held in court room number two before a crowded court room, with Judge Reppert presiding.

Joseph Sokal, 17 years old, was acquitted in court in Uniontown today of a charge of assault and battery with intent to ravish, preferred in behalf of Sophia Baldi, 15 years old, daughter of Martin Baldi. The alleged attack took place in the Connellsville garage. The costs were divided between Sokal and the father of the girl.

WILSON'S LEAD 500

Westmoreland-Butler Congressman-Elect First in County.

GREENSBURG, March 6.—With practically every election district heard from in the Congressional district composed of Westmoreland and Butler counties, the election of Attorney John H. Wilson of Butler, is assured by a majority of about 500 over John M. Jamison of Greensburg.

With eight districts missing, Wilson has a lead of 472 votes, and the missing districts are not expected to vary these figures 25 votes either way. It was the closest Congressional election ever staged in 32nd Congressional district and the result was somewhat of a surprise to both Republicans and Democrats. Mr. Jamison will carry his own county by about 550 votes and Mr. Wilson will carry Butler county by about 1,025 votes. About 55 per cent of the normal vote was polled in Westmoreland county.

Mr. Wilson is a member of the Butler county bar and is 44 years of age. The election of Mr. Wilson gives Butler county the first representative in the national House since the formation of the Westmoreland-Butler Congressional district. In that time the district has been represented by Colonel F. Huff, Curtis H. Gregg, A. L. Keister and Colonel Edward E. Robbins.

RESPONSIBILITY FOR WAR FIXED ONLY MORALLY

Peace Conference Committee Finds No Precedent For Legal Case, is Report.

TO FORMULATE TREATY

Proposal of American Delegates to Draw Up Articles Embodying Ideas Up for Discussion This Afternoon; British Reparation for Sea Losses.

By Associated Press.

PARIS, March 6.—The report of the peace conference committee to determine the responsibility of the authors of the war, it is understood, will be completed tonight and presented to an early meeting of the supreme council. Robert Lansing, American secretary of state, is chairman of the commission.

The work of one of the peace conference commission has been guarded so closely that of the commission on responsibility. The commission's report, it is understood, while fixing moral responsibility failed to find legal responsibility because there is no precedent or no law governing the case, and no court existing to try the accused if legal guilt were found to be evident.

PARIS, March 6.—The supreme council at its session this afternoon will first consider a proposal by the American delegation to invite the various committees to draw up articles embodying their report with a view to the formulation of a treaty of peace. The second question on the program is the discussion of military and naval reparations on the new condition to be imposed on Germany.

LONDON, March 6.—A German wireless message picked up here alludes to a threat made by General Ludendorff, Marshal Foch's representative on the joint armistice commission at Spa, Belgium, because the Germans have failed to turn over to the Allies industrial and agricultural machinery. The message explains that German firms constructing the required material have been unable to complete delivery because of the strikes and that a shortage of railway cars and the destruction of railways near Erfurt and Halle have retarded the carrying out of the armistice agreement.

LONDON, March 6.—British delegates to the peace conference have been instructed to submit as their first demand full reparation for British losses at sea during the war including compensation for relatives of mariners who lost their lives, according to a statement made by Premier David Lloyd George to a deputation from the mercantile marine service today.

PARIS, March 6.—The British and French delegates here have been literally outspoken in the supreme war council and the supreme economic council in criticism of the food blockade which the Italian government is maintaining against Dalmatia, Bosnia, Herzegovina, Croatia and Slovenia.

WEATHER NO BAR

Large Audience Gathers for Men's Night at Union Revival.

In spite of the inclement weather there was a large attendance at the revival meeting in the Baptist church last night. About 60 members of the Men's Bible classes of the Presbyterian and Baptist churches were present. John Davis conducted the service. E. W. Haviland, Mrs. A. R. Boyer, Miss Mary Elmer Kerr and A. R. Boyer sang "Praise Me, Jesus, to Thy Bosom." Rev. W. B. Purnell of Dawson offered prayer.

Rev. J. L. Proudt's sermon topic was "Receiving Christ and the Result." He explained what it means to receive Christ, how He must be received, and the privileges that those who receive Him enjoy. He said that Christ should not only have the first place in the church but also in social and business affairs, and he earnestly appealed to his hearers to give Christ "more room." He named four relationships that Christ has to those who receive him—his prophet, priest, king and advocate. He finally pointed out that those who receive Christ become the children of God and enjoy the privilege of friendship with the Master.

Tonight the Women's Bible classes will attend the meeting in a body. Rev. Proudt's topic will be, "Reconciling the World."

At Leipzig the general strike of citizens as a counter action against the industrial workers is still going on and threatens to complicate the situation. TO DARKEN HAIR

APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrant. Just a few applications will produce a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

White, wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and lustrant.

Honest Advertising

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public, and from which he honestly expects to receive his reward.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

GOVERNOR SPROUL AND OTHERS EXPECTED

Continued from Page One.

000 men in the two divisions and considerable time will be required to transport them. They also must wait their turn, giving way to commands with prior commutation orders.

Through the music committee an effort will be made to have the regimental bands of the 110th, 13th and 32nd infantry organizations here for a part of the celebration for three days if possible. Not less than a dozen bands for the "big day" is the plan talked of last night. For the pageant on women's day an effort may be made to bring here a trumpeters' organization, composed of women, from Philadelphia. Invitations will be extended to all the bands of the region. Since this is to be a patriotic observance the differences between union and non-union musicians likely will be cast aside, as they have been since the beginning of the war.

Chairman J. E. Angle presided over the meeting. There will be another meeting of all committees that have been appointed to date at the Masonic Temple on Friday evening at 7:30 o'clock. At this meeting more of the details are to be worked out and the call for all members to be present is urgent.

SAW HUMOR OF THE SITUATION

Commanding Officer, Dressed as a Martini, Proved He Was Not Altogether a "Bear."

There is a certain major-general in the A. E. F. who is a great stickler for discipline and military forms. His generals are that, but this one is a regular martini. The soldier who fails to salute and to "snap it out" when the general is around is in for an extended spell of that intensive form of culinary labor known as "kitchen police" or for something worse.

One afternoon the general was driving along when his car met a soldier on foot. The soldier man stood hard at the wheel, and his august passenger, but made no move to extend the required courtesy.

The general was indignant. He ordered his driver to stop and halted the plodding private in his best military voice.

"What do you mean by failing to salute me?" he roared.

"I beg your pardon, sir, but I didn't know you were a general," apologized the soldier, standing at attention.

"You didn't know I was a general, eh? Well, didn't you see those two stars on my cap? Don't you know what two stars mean?"

"Yes, sir, I know what they mean. They mean that you have two sons in the army," said the "buck."

The general told this story himself that evening at the staff mess and now his aids and the other staff officers know that he isn't such a "bear" as they had thought him.—Exchange.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten soon in the stomach much like garbage sores in a can, forming acid build and gases which inflame the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mucus, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

This woman is perfectly justified, and should be commended for telling others how she regained her health.—Adv.

Pile Sufferers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even chronic cases of 20 to 30 years standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful prescription known to druggists as *Albro Pile Remedy*.

It has been proved that so called external remedies applied or inserted into the rectum cannot cure piles and at the best, only give temporary relief. This is also true of surgical operations which simply remove them after formation, but in no wise acts on the source of the trouble.

This prescription, a cheap, safe, internally, is not digested in the stomach, but is rapidly passed on unchanged to the intestines in a short time, reaching the exact place where by its soothing, healing action, it first stops all inflammation and then by direct contact with all ulcers and piles, causes them to heal and disappear forever.

It's positively marvelous how speedily it acts. Blessed relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operation, really wonderful results have been accomplished.

The author of this amazing discovery desires all sufferers to know that he does not want a cent of anyone's money for this condition. *Albro Pile Remedy* decisively conquers even in the worst cases and he has instructed druggists all over the country to guarantee it in every case of blind, blood, or protruding piles.

IN-QUESTANT. What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition, *Albro Pile Ointment* has been prepared as in such cases it is not necessary to take the internal prescription. For sale by the Conneltsville Drug Company.—Adv.

SCOTSDALE HAS A SPECIAL NURSE TO FIGHT INFLUENZA

Miss Margaret East, Lately With the Red Cross, Engaged.

MANY CASES OF THE DISEASE

All Are of Less Severity Than During the Epidemic of the Fall and Winter, Health Officer Says; Children of Stricken Homes Quit School.

Special to The Courier.
SCOTSDALE, March 6.—In order to combat another epidemic of influenza which has spread over the town, Miss Margaret East, formerly a Red Cross nurse, has been engaged as a community nurse to act under the direction of the board of health. She entered upon her duties yesterday. Her headquarters are at the Y. M. C. A.

Miss East will not go about looking for cases of the disease, but where she receives a call she will investigate and give advice as to the treatment of the patient.

Asked how many cases there are in the town, Health Officer Frank Goshorn said he could not tell. It is reported there are several hundred. Mr. Goshorn said every precaution is being taken to prevent children from the afflicted families attending school.

Each day the health officer gets in touch with the physicians, he said, to learn where there are new cases and thus keep check.

LIET. BEALL HOME

Undertown Man Saw Much Active Service in Foreign Lands.

Home on an indefinite leave, not expecting to be called back, but declaring he would not be surprised to receive such orders in view of conditions abroad, Lieutenant E. C. Beall, of the 117 R. A. L., the Field Artillery of the Foreign Legion, arrived in Undertown Tuesday for a brief visit en route to Pinehurst to visit his sister, Mrs. Edwin Schofield.

Lieutenant Beall, who went overseas early in the summer of 1917 as a Red Cross Ambulance driver, has had most varied and interesting experiences having been with that first Red Cross relief train of 60 machines which crossed the Alps into Italy in the fall of 1917 and carried to the stricken kingdom, shaken by the great retreat, the first evidence of Entente and American help.

For seven months, although he was officially a member of the Red Cross, the local man was unofficially general trouble shooter for the Italian War Department's motor corps and the experience gained with his own driver on the Fayette county national pike stood him in good stead as he was rushed from one motor transport center to another to give instructions in the repair of Ford cars.

Last August he joined the Foreign Legion and entered an artillery school near Paris from which he was commissioned Christmas day.

Lieutenant Beall arrived in New York Sunday.

Dunbar, the presbyterial chairman of

just been accepted at a meeting of
the Redstone presbytery called to
consider that question. Under the
leadership of these two ministers con-
gregations of the 61 churches in the
Redstone presbytery are anticipating

CRIME WAVE SPREADS OVER ENGLAND SINCE ENDING OF WAR; SOLDIERS ARE BLAMED

(Correspondence of Associated Press.)
LONDON, March 6.—Crime has been
on the increase in England since the
signing of the armistice and, in of-
ficial quarters, particularly Scotland
Yard, it is attributed to a great ex-
tent to soldiers on leave. It is the
natural result of idle hands, the of-
ficials say.

Attendances at centers where leave
men congregated seem to be of one
opinion as to why soldiers now com-
mit petty crimes. They say the bear-
ing of the soldiers has changed since
hostilities ended. When they obtained
a brief respite from the fighting,
they still felt that they were engaged,
still had something to do and some-
thing to think about. People who
are at Young Men's Christian As-
sociation and Red Cross centers say
that now there is no interest for the
soldiers at the front and little they

can do in the cities, as few have much
money. They are idle mentally and
physically.

There has been a tendency to blame
overseas men for much of the crime,
not Americans as comparatively few
of them are on leave in England, but
a Scotland Yard official has stated
that the English troops are as much
responsible as their colonial broth-
ers.

"I am afraid there will be little
abatement in the outbreak until de-
mobilization has been considerably
advanced," he said. "If, in the mean-
time, the military authorities could
devise some scheme for keeping the
men more in the country districts and
less in the cities, things might be bet-
ter than they are. City lounging in-
variably has a worse effect on a man
than country idling."

"COURAGE FOR TWO."—A World
feature, in which Carlyle Blackwell
is seen in a dual role, is today's fea-
ture attraction. This picture is one
of the successful series of snap-
shots of interesting and lively Black-
well-Greasey entertainers. It is jam-
packed with the sort of delightful
picture material that film fans have
learned to expect from this popular
pair. "Courage for Two," is the story
of two young men, one rich and the
other poor. They are cousins. One
of the young men is a fighter, the
other anything but a fighter. Under
strange circumstances their positions
are reversed, with the result that there
is a tremendous action and fun. It
is a mighty good picture and don't de-
prive yourself of the good time you
will have in witnessing it. An able
company has been gathered to assist
Mr. Blackwell and Evelyn Greasey in
interpreting this unusual story. In-
cluded in the cast are George Mac-
Quarrie, Rosina Henley and Jack
Drumier, each of whom is famous
and popular as a screen player. An
interesting weekly review is also be-
ing shown. Friday and Saturday
Geraldine Farrar will be seen in "The
Hell Cat," a Goldwyn production.

"BAD DEBTS" ONLY THOSE NOT RECOVERABLE LEGALLY IS COLLECTOR'S DECISION

"Numerous inquiries have been re-
ceived concerning the allowances for
'bad debts' in the filing of an income
tax return," said Collector of Internal
Revenue C. G. Lewellyn of Pittsburgh.

"Bad debts recognized as such prior
to the taxable year 1918 are not de-
ductible. Only such debts as have
been charged off as worthless indicate
that a debt is uncollectible and that
legal action to enforce payment, in all
probability, would be useless, a show-
ing of these facts is sufficient evidence
of the worthlessness of the debt for
the purposes of deduction.

"Bankruptcy may or may not be an
indication of the worthlessness of a
debt. Actual determination of such
worthlessness in such cases is pos-
sible only when settlement in bank-
ruptcy is made. Only the difference
between the amount received in distri-
bution and the amount of the claim
may be considered as a bad debt. The
difference between the amount re-
ceived by a creditor in distribution of
a decedent's estate and the amount
of the creditor's claim may be con-
sidered a worthless debt."

To Relieve Catarrh, Catarrhal Deafness And Head Noises

Persons suffering from catarrhal
deafness, or who are growing hard of
hearing and have head noises, will be
glad to know that this distressing af-
fection can usually be successfully
treated at home by an internal medi-
cine that in many instances has effect-
ed complete relief after other treat-
ments have failed. Sufferers who
could scarcely hear have had their
hearing restored to such an extent that
the tick of a watch was plainly audib-
le seven or eight inches away from
either ear. Therefore, if you know of
someone who is troubled with head
noises or catarrhal deafness, cut out
this formula and hand it to them and
you may have been the means of sav-
ing some poor sufferer perhaps from
total deafness. The prescription can
be prepared at home and is made as
follows:

Secure from your druggist 1 oz. Per-
manent (Double Strength). Take this
home and add to it 1/2 pint of hot
water and a little granulated sugar;
stir until dissolved. Take one table-
spoonful four times a day.

Permanet is used in this way not only
to reduce by tonic action the inflamma-
tion and swelling in the Eustachian
Tubes, and thus to equalize the air
pressure on the drum, but in correct
any excess of secretions in the middle
ear, and the result it gives are nearly
always quick and effective.

Every person who has catarrh in
any form, or distressing rumbling,
buzzing sounds in their ears, should
give this recipe a trial.—Adv.

MASSACRES ESTABLISHED

Cumulative Evidence Found of Efforts
of Bulgars to Exterminate Serbs.
NISSE, Serbia, Feb. 10.—(Correspon-
dence of the Associated Press.) Cumu-
lative evidence has been given the cor-
respondent of The Associated Press by
many Serbian mayors or prefects of a
studied attempt by Bulgarians during
their occupation of Serbia, to extermi-
nate part of the civilian population.

In the town of Boka Plana the num-
ber who fell victims to Bulgar mas-
sacres is placed by the chief of police
at 300. At the invitation of this official,
the correspondent visited the scene
where many of these murders were
carried out. He saw heaps of human
bones, skulls and fragments of cloth-
ing. No effort apparently, had been
made by the Bulgars to give their vic-
tims burial and their bodies were
left exposed to dogs and wolves.

Among the Serbians killed here was
a 70-year-old monk.
The Bulgars placed a special guard
about this place of slaughter, which
is situated high up on Lemon hill, and
forbade any Serbian going near it un-
der penalty of death.

METEOR MELTS ICE

Heat From Heavenly Visitor Inter-
feres With Plan for Crop Harvest.

By Associated Press.
TOWANDA, Pa., March 6.—A search
for a missing meteor, conducted by
the United States Geological Survey,
has ended in the reservoir of the
Towanda Water company. Incident-
ally it has enabled the company to
account for the sudden disappearance
of its ice crop on the night of Janu-
ary 22.

On the afternoon of the meteor's
flight local officials visited the reser-
voir and decided to cut the eight-inch
crop of ice the next morning. During
the night the meteor landed in the
reservoir. When workmen went to
harvest the ice, it had dwindled to a
scant three inches, due, it is as-
serted, to the heat of the meteor warm-
ing the water in the reservoir.

The reservoir will be drained in
an effort to find the meteor.

The Handbag
an Important Detail

FROM being an almost insignificant item of the complete street costume, the handbag has advanced to such a prominent position in the wardrobe that it is one of the most conspicuous features of dress. It is considered now as a dress adjunct rather than as an accessory of utilitarian character. Far better carry no handbag at all, and stow your belongings away in pockets, than to carry a bag that will jar upon the complete harmony of your costume, or strike a clashing note with any part

This needling importance of the handbag means, of course, many handbags for many costumes. No longer is it possible to get along with one or two—say a useful leather bag for shopping and travelling and a smaller one for calling on. Each costume must be matched with its own particular reticule which must accord in style as well as in color with the character of the costume its accompaniment. There are women who are so particular that they change every gown; indeed some of the French couturiers furnish such reticules, sending them home with the completed costume as an indispensable detail. But less monotonous and stereotyped is the manner in which the accessories match the costume—not fastened in harmony with it that they seem a component part of its original design. There are hundreds of such bags on sale, in the jewelry shops and the stores that carry handbags and the shops that carry smart leather belongings offer a generous quota of presentable bags and purses, some of them very handsome and expensive.

Individuality is the thing in a handbag just now. No woman wants to carry one that is hurried dupli- cated in the hands of other women. Some of the most expensive bags are artistic creations as individual as oil paintings for only one of the kind may be ob-

der encloses an eight-sided central motif with a black bead ground and large white flower. The smaller embroideries in the pattern are in white, black and steel beads. This bag has a silver frame and chain.

The shield-shaped bag owes its distinction to its coloring—a deep, rich blue combined with steel, and a rose pink and white. The design is of a dainty color note. The rose is shrimp pink in tone and blends artistically with the blue and steel beading of the bag. The "originality" shown in bag shapes is evidenced in two designs. One is pear-shaped, the stem of the pear, as it were, forming the handle—a single strap or loop, rising from the center of the frame. The beading is in black and blue. The other is oval, and the design carries out the pear-shaped Persian embroidery motif. Another bag in this group is almost oval in shape, the deep frame enclosing the top of the oval; the embroidery is in black and blue. The design is of a Chinese Mandarin figure against a grey-green, shrubby background.

The most generally popular beaded bag, and the style most in vogue, is a circular one of the traditional shape—longer than wide—and with a curved or straight frame at the top. Two such bags are pictured; one in jet and henna colored beads with a black and white design, the other a very handsome afternoon bag of buff velvet with steel beading, the frame of dull silver. This bag has the perforated frame which may be bought separately, in gold or silver, for use with any home-made frames. These frames are on sale in the department stores and jewelers' shops and one may evolve a truly magnificent bag, beading the silk or velvet with one's own hands and the use of the home-made bag to a metal frame. It costs a tidy sum, however, to produce even one of these home-buff reticules. The frames cost from two dollars up and

Extra Strain On Narrow Skirts

THIS season's skirts are so narrow that a good long stride crossing a gutter is apt to start the seams at either side of the hem; and two mishaps of this sort may leave a woman out rent rather difficult to repair. The remedy is easily found in a ready-made skirt of silk or satin, for no ready-made skirts have

It is also a considerable strain to make a packet opening. Put an extra snap fastener or two near the bottom of the opening and leave these snaps always fastened together. They will not be needed in adjusting the strain, but they will ease the strain that would occur in a packet stretched to its utmost.

Footlight Fashions As New York Sees Them

PERHAPS the most talked-about stage track of the whole winter is the black velvet one worn by Miss Maude Hamford in *Tolerance*. "Redemption" is a fresh possibility, if only it didn't look like a velvet creation of Miss Hamford's has actually even *seams*. The breadth of material are put together with machine ham stitching and the whole costume is as soft and slippery as a chair cushion. The sleeves are long, no trimming, no collar, no belt; but the long clinging lines are perfection, and the non-entailments "long" one must not forget to add that it fully draws on the floor—no, it's not a slip. The sleeves are long, too, and though they cling to the arm from shoulder to elbow, below the elbow they widen out into puffy bishop sleeves that are drawn into narrow cuffs. The black pendant feather stays at the back of the head.

the state costume. Quite in contrast to this dignified black velvet gown are some costumes worn by Miss Nora Bayes in "Ladies First," which is a tale of suffrage and the "new woman." The striking pink dress worn by Miss Bayes is a colorful contrast to the pale blue velvet bordered with electric green velvet and faced here and there with rose pink silk. With this dress goes a love of a Victorian hat, which is a masterpiece of millinery. The costume is topped over a long, curling plume that droops over the hair. Another striking frock worn by Miss Bayes is a summery affair of organdy with lace panels from throat to ankle and a wide, ruffled collar. The dress is in "Be Calm, Camilla," Miss Lola Wheeler has a chance to wear a ravishing dress of purple and white with a wide, ruffled collar that seems a perfect masterpiece of millinery. Theatre Bags Run To Extremes In Color. And For The Theatre Silk Pouch.

Shaped Bags Rank Equally With Beaded Frame-Bags.

Found anywhere—there are no duplicates. Bags of this type, shown usually at high class jewelers' and at specialty shops, are, of course, very expensive but there seems to be plenty of market for them. They now have become the bag of the hour, and are most popular, especially with the very successful actresses—is the beaded bag; and, of course, in these models there is vast opportunity for individuality and for originality of design. There are dozens of different styles, and the variety of combinations of color are innumerable.

Five handsome new headed reticules are pictured: the single exception to the beaded design being one bag which is of silk with a pattern in silk embroidery. The French designers have interpreted the Paris bag aside. It is made of black fawn silk and the embroidery is in brilliant red and blue colors—an early Victorian suggestion that is creeping back into dress design. The black bag is made of a beaded bag is very much in vogue. The effect of the bag has a border in white beads with a pattern of black beads, and the fringe com-

very rich materials must go into bag and bag-lining if the effect is to be smart and distinctive.

Speaking of bag-linings, these once mere-linings have risen to such importance that each season they have grown richer and more elaborate, that now it seems a pity to cover them up entirely with the outside of the bag. So Paris has brought out some new spring reticules with the outer side of suede, perforated with large holes, and with bag-linings. There are large reticules of biscuit or pale gray suede perforated in fleur de lys and other conventional motifs to show linings of pale blue or rose or mauve satin; and there are bags of black patent kid perforated with large holes, the lining shows an underlay of white. Paquin shows several of these purses with her spring collection of tailored costumes. Another interesting new French hand-bag is made of cloth to match the lining, and since almost every Parisienne is wearing black now, most of these bags are of black cloth—and the cloth bag is ornamented with rows

es black and white beads. The bor- of hand-run stitching in white.

ers Say in Letter to His Parents
Here: Other Costs Also are Lower.

His impressions of the city of Glasgow, Scotland, where he and others of a party of T. M. C. A. workers landed on their way to France, are interestingly described by Charles S. Hall in a letter to his parents, Mr. and Mrs. E. G. Hall, under date of February 22. The letter is the ninth written by Mr. Hall since he left the States. He says:

"Dear Folks:
"Where am I? Well, I am in old Scotland. We have at last landed and are located on dry land, and it is good to place one's feet firmly on old Mother Earth again. We landed about 2 o'clock this afternoon and were met at the wharf by about half a dozen representatives of the 'Y,' one woman, the rest men.

"At about 2 o'clock we were taken to headquarters, which is located in a large rambling building of many rooms and countless corridors and in which I have already been lost several times. Fourteen of us were assigned to one very large room, each to occupy a steel cot with fresh linen, plenty of covers and as the room is cold and the air moist, we will likely need all of them.

"So after we had found out where we were to sleep, Mr. Barton, Mr. Couch and I took a long walk through the city. It certainly is some place—large and to us Americans, queer in many respects. There are no high buildings like in our cities, but for the most part they are three and four stories. There are stores of all kinds, all prices, miles of them.

"One notices the absence of automobiles. We saw only six in two hours' time. There are trolley cars by the hundreds and people on the sidewalks and streets by the thousands. All appear to be in good humor and all seem to be just strolling about—very, very unlike our hustling bustling American cities where the people are always in a hurry, and always going somewhere.

"We rode from the dock in a subway—women motormen and conductors—and the street cars are run by women also. This morning as we walked up the Clyde we saw women working on steel ships in progress of construction. Many of the men wear hats and it is not an uncommon sight to see bare knees. It looks strange indeed to see an overcoat reaching down just to a pair of uncovered knees. Bright colors prevail and many plaids in suits, scarfs, ties, etc., are seen.

"The people are mostly smaller, much smaller, than the average in the United States. They have black hair and dark eyes, although one sees light hair occasionally.

"One of the buildings, as well as the street and sidewalks, are of stone and look very strong and durable.

"Money, you know, is counted in pounds, shillings and pence. I bought a half pound of candy and it cost me 16 pence or 12 cents. Our ride in the subway cost all the way to one penny or two cents in our money and the fare on the surface cars is the same. They seem more anxious to give you your money's worth than over in America.

"One can either eat here at the 'Y' or go out anywhere, we wish as I am going out directly and hunt a little restaurant and dine with some others of our crowd who wish to go along. Our plans have all been changed. We do not go through London, but remain here a couple of days and then go to Liverpool and from there sail for France, which means another 24 hours on the water. It matters little how we get to Paris for every new place we hit is more interesting than the last and life moves on very interestingly.

"Today I saw an interesting sign in a shop window which read 'Oddments for Sale,' meaning I suppose a clearing out of odds and ends. Another sign read 'Central Hotel for a Bath and Breakfast.' One does not need to do anything but run about the streets to find more fun than in a theatre at home. As for the show, I see they have Charlie Chaplin, Mary Pickford and all the rest running along just like at home.

"One soon catches on and I am already getting used to the English money. Their one penny piece (two cents in our money) is copper and about as large as a half dollar.

"I do not think you need to worry about my physical condition. I am sound as a dollar. I can eat anything, sleep anywhere, log all kinds of baggage and come up-vulving with the best of them. I have an appetite like a horse and fall asleep as soon as I hit the hay."

KEEP LOOKING YOUNG

It's Easy—If You Know Dr.
Edwards' Olive Tablets

The secret of keeping young is to feel
young—to do this you must watch your
liver and bowels—there's no need of
having a sallow complexion—dark rings
under your eyes—pimples—a bilious
look in your face—dull eyes with no
sparkle. Your doctor will tell you ninety
per cent of all sickness comes from in-
active bowels and liver.

Dr. Edwards, a well-known physician
in Ohio, perfected a vegetable com-
pound mixed with olive oil to act on the
liver and bowels, which he gave to
his patients for years.

Dr. Edwards' Olive Tablets, the sub-
stitute for calomel, are gentle in their action
yet always effective. They bring about
that exuberance of spirit, that natural
decoy which should be enjoyed by
everyone, by toning up the liver and clear-
ing the system of impurities.

You will know Dr. Edwards' Olive Tab-
lets by their olive color. 10c and 25c per
box. All druggists.

LEAP THROUGH WINDOW

Alleged Thieves, Manacled, Make Get-
away from Passenger Train.

CONNELLSVILLE, March 6—While be-
ing taken to the Somerset county jail
to await trial on a charge of stealing a
suitcase at the Baltimore & Ohio
railroad station here, Calvin Shoemaker
and Frank Berkley escaped from
the officer in charge of them several
days ago, by jumping out of the car
window of the train upon which they
were riding. The two young men were
handcuffed together and escaped from
the train at Shamrock, Somerset
county.

The young men, it is alleged, stole
the suitcase last Thursday, while the
owner, Mrs. Grace Crow of Cumber-
land, Md., was looking for a conver-
sation to take her to Friendshipville
to attend the funeral of a relative. The
suitcase was found later near the rail-
road station, but its contents were
missing. The contents, it is claimed,
were found in another suitcase, belong-
ing to Berkley and Shoemaker, who
were arrested. They were given a
hearing before Justice of the Peace J.
F. Clouse and held for court without
bail.

M. E. CHURCH BUYS TWO PROPERTIES FOR WAR ORPHANS

One of 200 Acres is Located Near
Lyons, France, Dr. Appleton Bash
Announces in Pittsburg.

PITTSBURG, March 6—The Metho-
dist Episcopal church here, through its
Board of Foreign Missions, purchased
two properties for the care of war or-
phans, announced Dr. Appleton Bash
here yesterday.

The orphanages at Grenoble were
not large enough to meet the needs of
the countless throngs of little folks
made orphans day by day. Eighty to
ninety thousand dollars will be needed
to pay for the new orphanages.

One near Lyons embraces 200 acres,
15 of which are enclosed. It contains
a chateau, servants quarters, stables,
garage and chapel. Here also are a
park, a garden and an orchard where
the little folks may learn to forget the
horrors of the war. The buildings are
in need of extensive repair but are
well adapted for the use desired. In
order to make this a useful orphan-
age and industrial plant there is need
of bettering the conditions of the prop-
erty, supplying equipment and stock-
ing the place with everything that is
necessary to make it a modern agri-
cultural center. The municipal au-
thorities at Lyons are intensely inter-
ested and are providing cooperation in
a practical manner.

The other property is in the sub-
urbs of Lyons. It is six acres en-
closed in masonry walls. There are
one stone building with 25 rooms and
a chalet with nine rooms, also a stable,
garage and gardener's quarters; and
a small brick building with two rooms.
Here orphan girls will be taken care
of as a supplementary work to what
the Woman's Foreign Missionary so-
ciety is doing at Grenoble.
